The 4th International Symposium on Information Systems and Computer Science (ISICS 2024) will be held in Santiago, Chile, from March 23 to 25, 2024. The symposium will bring together researchers, practitioners, and industry experts from around the world to share their latest work and insights on a wide range of topics in information systems and computer science.

The theme of ISICS 2024 is "Information Systems and Computer Science for a Sustainable and Inclusive Future." The symposium will explore how information systems and computer science can be used to address some

of the most pressing challenges facing our world today, such as climate change, poverty, and inequality.

The symposium will feature a variety of keynote speakers, panel discussions, and paper presentations. There will also be opportunities for networking and collaboration with other researchers, practitioners, and industry experts.
