

# How to Start an eBay Dropshipping or Teespring Marketing Project

The first step to starting an eBay dropshipping or Teespring marketing project is to choose a niche. This is the topic or area that you will focus on for your business.

When choosing a niche, there are a few things to keep in mind:

- **Your interests:** It is important to choose a niche that you are passionate about. This will make it more enjoyable to work on your business and will help you to stay motivated.
- **Competition:** It is also important to consider the competition in your niche. If there is a lot of competition, it will be more difficult to stand out and make a profit.
- **Profitability:** Finally, you need to consider the profitability of your niche. Some niches are more profitable than others. Do some research to find a niche that has a high demand and low competition.

Once you have chosen a niche, you need to find products to sell. If you are dropshipping on eBay, you can find products to sell on websites such as AliExpress and Oberlo. If you are marketing on Teespring, you can create your own designs or use designs from other users.
