

Malayan Horned Frog Care: A Comprehensive Guide

Malayan horned frogs, also known as Asian horned frogs or Pacman frogs, are a popular choice for reptile enthusiasts due to their unique appearance and interesting behaviors. These frogs are native to Southeast Asia, and they can be found in a variety of habitats, including rainforests, swamps, and marshes. Malayan horned frogs are ambush predators, and they will typically wait for their prey to come close before they strike. Their diet consists mainly of insects, but they will also eat small rodents and other reptiles.

Habitat

Malayan horned frogs require a humid environment with plenty of hiding places. The ideal temperature range for these frogs is between 75 and 85 degrees Fahrenheit, and the humidity should be around 70%. The enclosure should be large enough to provide the frog with plenty of space

to move around, and it should be equipped with a water dish, a hiding place, and a basking spot.

Diet

Malayan horned frogs are carnivores, and they will eat a variety of insects, such as crickets, mealworms, and dubia roaches. They will also eat small rodents, such as mice and rats. The frog should be fed once or twice a week, and the food should be dusted with calcium powder.

Size

Malayan horned frogs can grow to be quite large, with some specimens reaching a length of over 8 inches. The average size for these frogs is between 4 and 6 inches.

Lifespan

The lifespan of a Malayan horned frog is typically between 5 and 10 years. However, with proper care, some frogs can live for up to 15 years.

Tank Setup

The ideal tank setup for a Malayan horned frog is a 20-gallon terrarium with a secure lid. The terrarium should be equipped with a water dish, a hiding place, and a basking spot. The substrate should be a mixture of peat moss and coconut fiber. The terrarium should be misted with water daily to maintain humidity.

Malayan horned frogs are fascinating creatures that make great pets for reptile enthusiasts. These frogs are relatively easy to care for, and they can make a great addition to any reptile collection.
